The committee had invited the public to be present and witness the trial, but in pto this time they had been excluded from doing so, and a large number had become disguasted, and started home. The board possess no mechanical experience over other farmers, and could only arrive at more certain conclusions by having the monopoly of the tests of time and draft. They did not call to their aid experts in either material, workmanship or arrangements of the several parts. They asked no had from farmers of long years of experience with respers, but excluded all these, looked wise, and trusted to shrew ginsaing instead of isborious and scientific investigation, to arrive at real merit. Among the hand-raking reapers, the Cayuga Chief, manufactured by Messra. Shedden & Co., of Auburn, New York two of which, a combined reaper and mower and a single mower, are on trial. It is noticeable that the whole of these machines are made of iron and steel. The frame is of wrought from, the cutter bar of steel, while for the finger bar and consequently durable, caused, atrong, and consequently durable,

compact, strong, and consequently durable, the main wheel has internal cogs making it light and strong. It is worked with a loose or hinged the strong in its worked with a loose or hinged may be a solution of hinged the strong in its worked with a loose or hinged construction with ease. It runs on two wheels, soth of which are drivers and act together or had condently, as desired. This with the factible plat of the cutter bar allows it to conform with any uneven surface. The points of the fangers and cutters can be clevated or depressed instantly, while the machine in morther, as we still y proved in the trial of to-day. One point in which this machine streets all others in its guards is in what is called a ledger or cutting plate. This is placed in the bottom of the guard, and can be taken out at lesure and ground or filed as the edges wear off. It is well known to all farmers that nearly all of the innowers using a smooth stake, cut well for a part or all of the first season, but soon the seaso of the season is a value, but in this machine the defect is faily remedied. The machine is free from side fraft. As a hand raker, it did the best work, both in catting, in form and size of gavels, and with the least waste. For the past eight years it has been familiar in all parts of the State. In the trial it cut one and eighty-four hundreth acree in sixty-one minutes, doing most excellent work. It was afterwards tried as a hand rake with good success. The size of the bundles are regulated at the will of the driver, and it is instantly lowered or raised as tecded for high or low, ledged or standing radm. It has a fire fact, cut, and is worked with two horses, is without the usual side draft, is easily adjusted by the side of a lever; in fact the driver, either by hand or foot has complete control of the machine. The machine is solvently balanced on the driving wheel that the borses necks are relieved from all pressure. The machine is all of its parts, is of good material and

FORTERSS MONROE, JULY 26.—I am credibly informed that large rebel forces are being concentrated on the line of the James River above the function of the Appornation and James rivers. They came down from Richmond by the Peterstung and Richmond railroad. It is believed they already number from 50,000 to 60,000, and that Jackson is in command of them, notwithstanding the rumor that he is in pursuit of Gen. Fope. My laformant is very confident that the robeis are now making a bold stand at the above named place, and are bringing all the forces therethey can spare from Richmond. He believes that it is the intention of the rebeis very such to make an attack on Suffolk, as they are within twenty miles of that city with considerable force. The Von Phul, from Holens, brought up between eight and nine hundred bales of cot-ton. No news of importance by her. The First Illinois regiment has just arrived The steamer City of Alton, on her way up Columbus.

Reports telegraphed North of a large rebel force near Corinth, and a threatened attack

upon that place, are all untrue. Guerrillas are committing depredations near Bird's Point, having robbed a farmer ten miles from that place, on Saturday night, of fire arms to make an attack on Suffolk, as they are within twenty miles of that city with considerable force.

Night before last a company of rebel cavalry came down on Gioucester Point, opposite Torktown, seized and carried off a lot of contrabands that had accumulated also forced into the robel army all the males that could be found there capable of bearing arms. They then set fire to a lot of ship timber and left.

The robel cavalry are almost daily prowling about that region, seeking plunder of any kind, and pressing into the service all the men they can find who, they think will be of any service to them. Similar depradations are being committed in the vicinity of Williamsburg, whether by the guerrillas or regalars of the robel army, it is hard to determine, as they often arms and unforthy which otherwise they could bot. In their masked characters they commit many depradations, telling civilians they have authority for their acts, being regular confederale, cavalry.

Yesterday a man obtained a pass in Norfolk for the pretended purpose of going to North Carolina. He was watched by an efficer and followed several miles from Norfolk, when he took a swrong road and was steering towards a Rehmond. The officer then quickly rode up, arrested him, and found on him two thousand, letters be was about to convey to Richmond. This will stop the avenue by which Richmond. of ten more in another district, and twenty-five in a third, all of whom will be coming this way. The quota of Chicago and Cook county can be raised; but it will way to the poorer neighborhoods and ounty, and raise a quarter of a million, he result would be almost as bad. The quota of Illinois is nearly 28,000 men un-der the new call. Suppose them to receive sixty dollars each, and we have a total of press heaviest. Can the State carry the load? Ought she to he We maintain that the obligation of the citizen to fight, and if necessary die, for his country, is superior to all other obligations of a political character; and that, acting upon the fact of its existence, the Government should appeal to it, not by entreaty and offers of purchase, but by words of command; and that the men, when raised, should be rut where they will be able to do the country the most service in the shortest time— put into the ranks of the old regiments where in a month they may learn a soldier's duties and do a soldier's part. the men are gotten by voluntary or rather Why, winter is upon us. The mud that kept our armies under the Young Napoleon back for months, when only twenty miles and winter quarters will be inevitable. In the winter, drilling and lostruction will be of little avail; and next spring we still have raw regiments to put into the field against the armies of the rebel conscription that were marshalled six months ago

Larned, U. S. District Attorney, and Col. Eastman recently of the Chicago Rest, all of this city, have consented to be present and ad-dress the meeting. We promise the citizens of Knox in advance able, sloquent and stirring speeches. Let the people turn out, send their quots of recruits to the camp, and make their influence felt in Washington for the prosecution of the war with all the means that God has placed within our power.

This is not what the country wants. The demand for men is now, so that in

September, October and November the last

of the rebellion may be put down and trod out. Waiting implies a general expense of more than a million of dollars

A Good Idea.—The commissioner of police of New York city have been industrious.

If engaged for some time past, is forming
lists of all persons of secession principles and
doubtful legality, who at present infest the
community. The whole force of the department has been secretly employed in this good
work, and the use to be made of it will probabity be, to direct the government, when deating shall commence, where to go for its first
levy.

By drafting we shall get better men than by volunteering; their services will be made available at once; the whole matter of bounties will be dispensed with; and then the wealth of the country may, by taxation, or voluntary kift, be applied to the care of the families of those who go out to the fight. This may be unpopular doctrine, but it is that to which we shall, before the war is over, be obliged to come, because it is nothing more or less than common sense. New York drafts on the 19th? On motion, it was voted that the committee retire for consultation with Mr. Sloan.
During the absence of the committee from the room, Col. Lights, formerly of the Ystes. Phalax, appeared before the association; and explained at length the facts which lead to bis di-missal from the army at the instance of Gen. McClellan, with a view to the recommendation by the association to the Governor for reinstatement to his command, or appointment to another regiment.
Mr. McKludy was opposed to taking any action in the case of Col. Lights. This was a Mercantile Association, and he did not propose to go outside of its legitimate province.

A REGIMENT OF HOME OURED.

A Petition was presented setting forth the resolutions passed at previous meetings of the people, and recommending the organization of a Home Guard to be part of the post office, for very liberal donation with the same a communication was presented by the Mayor. In connection with the same a communication was presented by the Mayor, urging, for many reasons, the passage of an ordinance for the purchase of srms and the protection of the city. The action taken by the Council resulted in the passage of the following ordinance:

— Peter Casey opened a recruiting office in Kingsbury Block yesterday, to recruit a company for the Board of Trade regiment.

— We notice that our old friend, fee. W. Chaudier, whom everybody knows to be a capital fellow, has given his services to his country, and received a commission to rules a company of volunteers for the Board of Trade regiment. All who want to serve their country under a live and popular man, call at Capi. Chan let's tent, southest corner of the Court Rome square, and enrol your names.
